## Meet the Designer

Imagine Rigney began building with LEGO® at age three. He started seriously designing his own sets at twelve. He has essentially, like most LEGO® fans, grown up with the bricks and just never put them away. Some of his original works include The Denver Public Library, Miyazaki's Howl's Moving Castle, BioShock's Rapture, Columbia, Songbird and the Sky-Hook. As well as the Reaper from Mass Effect. His designs have been included in the LEGO® Ninjago Masters of Spinjitzu Visual Dictionary, PlayStation Official Magazine UK and The LEGO® Architect. Awesome fans of his builds have shared his work all over the world!
