

MOZE:DISCIPLES OF THE VAULT COSPLAY®

BORDERLANDS 3

SAINT OF IRON

Ambushed by an army of COV looking to steal Iron Bear, Moze single-handedly decimates their forces. Survivors spread tales in hushed whispers of the Saint whose bullets chewed through them like lead locusts. When some COV begin making pilgrimage to have her bless them and their weapons, Moze, nostalgic for the camaraderie and community she enjoyed in Vladof's ranks, fully adopts the role of "Saint of Iron".
